OUR INGREDIENTS

We only bake with the best. From our chocolate swirls and nibs (Belgian, 72%) to our vanilla pods (Madagascan), from the delicate cornflower petals that adorn every slice of carrot cake, to the size of the salt crystals we sprinkle over our salted caramel brownies.

OUR INNOVATION

Our handmade cakes and traybakes are blast frozen for ultimate freshness, flavour and form and are available perfectly pre-portioned, so you can keep your colourful counter displays topped up throughout the day.

OUR SERVICE

Every aspect of our service is designed with our customers in mind, from the clarity and positioning of our labels and our robust, sustainable packaging, to our easy online ordering and convenient next-day delivery. The team are always on hand to help with anything you need.

OUR TEAM

Our hand-picked bakers dedicate their days to all things cake, and are led by our Head Baker, an expert pastry chef, who insists on nothing short of perfection, right down to the tiniest detail. We're also expertly guided by our own Free-From Specialist, to provide the broadest possible range of delicious vegan, very-low gluten or dairy-free treats. Our talented team are always on the lookout for new techniques, innovations and different flavour combinations to bring you the very finest wholesale cakes and bakes.

The finest cakes, frozen.

1

Our cakes and bakes are frozen as soon as they leave the oven

We use a process called blast freezing, so they are delivered to you as fresh as the day they were baked.

2

For freshness, flavour and form

Blast freezing our cakes not only keeps them fresh, it helps them to retain their full flavour and keep the perfect form.

3

For safe arrivals

We ship our Finest cakes nationwide. Freezing them keeps them safe from harm on the road, so they can arrive in perfect condition, ready for defrosting, or continued storage.

4

For easy storage

Finest cakes can be kept frozen for at least 6 months, so you get incredible flexibility to cope with variable customer demand and unexpected spikes in footfall. They're easy to stack in the freezer, thanks to our robust and clearly labelled packaging, so you can stock up your freezer in one go.

5

For perfect portions

It's easier to supply pre-portioned cakes frozen, so the slices keep their shape and you can top up as you go through the day. Say goodbye to those odd, skinny left-over slices and get the most out of your cakes.

6

For less waste, and better profits

By supplying our cakes frozen and pre-portioned, you can easily defrost just as much as you need, within the hour, avoiding unnecessary waste and maximising your profits.
